Glossary	Description
BK	(Hard bright) pipes not heat-treated after cold drawing
NBK	Pipes that are normalized under protective gas after cold drawing
GBK	Pipes that are annealed under gas after cold drawing
BKM	Pipes not heat treated after welding and size calibration
BKW	(Soft) pipes that are subjected to complementary cold drawing at deformation rate after heat treatment.
ERW	Lengthwise seamed pipes
SW	Spiral seamed pipes
ANSI	B.I.20.1. Standard Thread Pipe (NPT)
ANSI	B36.10 – Welded and Seamless Steel Drawn Pipe
ANSI	B16.25 – Preparation of weld inlet for short radius brackets and Returns
BW	(Butt Weld) = Alın kaynaklı
SW	(Socket Weld) = Soket kaynaklı
PE	(Plain end) = düz uçlu
THD	(Threaded) = Dişli
PBE	(Plain Both ends) = Her iki tarafı düz uçlu
PLE	(Plain large end) = Büyük ucu düz
PSE	(Plain small end) = Küçük ucu düz
BBE	(Beveled both ends) = Her iki ucu kaynak ağızlı
BLE	(Beveled Large end) = Büyük ucu kaynak ağızlı
BSE	(Beveled small end) = Küçük ucu kaynak ağızlı
TBE	(Threaded both ends) = Her iki ucu dişli
TLE	(Threaded large end) = Büyük ucu dişli
TSE	(Threaded small end) = Küçük ucu dişli
